## Canada Political Map

Prepare your political map of Canada by completing the following:

1. Outline and name each political subdivision (province or territory) of the nation.
2. Locate and label the national, provincial and territorial capitals.
3. Draw in, label and colour blue, the six large lakes (shown on the map) as well as the four Great Lakes shared by both Canada and the United States.
4. Label the three oceans which border the nation.
5. Lightly colour your map so that each province or territory is distinct.

Now use your map to help answer the following questions:

6. Which province or territory appears to have the longest continuously shared border with the United States? \_\_\_\_\_
7. Which province divides the United States? \_\_\_\_\_
8. Which provinces or territories have no salt water boundaries? \_\_\_\_\_  
\_\_\_\_\_
9. Which capital city is located farthest east? \_\_\_\_\_
10. Which capital city has the most southern location? \_\_\_\_\_
11. Which province or territory has the longest coastline? \_\_\_\_\_
12. Which of Canada's political subdivisions do not share a land border with the U.S. ?  
\_\_\_\_\_
13. Which of Canada's provinces or territories extend farther south than the most northern point of the "lower 48" of the United States? \_\_\_\_\_
14. Which is Canada's smallest province? \_\_\_\_\_
15. Which province or territory borders both Manitoba and British Columbia?  
\_\_\_\_\_
16. Which political subdivisions share a land border with only one other of Canada's provinces or territories? \_\_\_\_\_
17. Which of Canada's provinces and territories share land borders with two other of Canada's political subdivisions? \_\_\_\_\_
